Eligibility and Categories

1. World Long Range Championships eligibility is based on ICFRA Rule L5. It is expected that these championships will be at full range capacity. As the scoring disks are not readily visible to the naked eye under all conditions, competitors must have on their possession a spotting scope or binoculars in order to perform scoring duties. Failure to perform scoring duties can lead to disqualification.

2. Score Keepers are required to time the shooter for which they are scoring and record the start and finish times on the score card. The time allowance is 23 minutes at each Long Range distance. An additional 5 minutes set up time is allowed beginning immediately after the firing point has been made available, but a shooter may commence earlier if ready, having notified his scorer.

Safety

The Score Keeper **MUST** verify the chamber is clear and the Empty Chamber Indicator (ECI) is inserted before the competitor leaves the firing line. The Score Keeper's signature on the score card signifies this has been verified. If the competitor subsequently has an accidental discharge, the Score Keeper is also accountable and may be disqualified. As soon as the chamber has been inspected an Empty Chamber Indicator (ECI) **MUST** be inserted. The shooter may also remove the bolt, if desired, but all rifles must have the ECI inserted at all times while not firing or preparing to fire while on the Camp Perry facility.

Ties

1. Ties winners will be determined by counting backward using V's as the highest score possible. A shoot-off will be conducted to determine the winner of an individual match should an unbreakable tie exist.

Use of Scoring Devices

Only the Butt Officer (Pit Officer) per ICFRA FB Rule T12 (A), or Pit Referee, will plug shots under contention.

Scorecards for the World Championships

1. Scorecards are provided to each competitor in the competitor packet. Upon receipt of the packet, each competitor should check immediately to be sure that a complete set of scorecards is enclosed. Each competitor must make certain that the correct scorecards are used for each day's firing.
2. **DO NOT** cross out match numbers and substitute others. World Long Range Championship scorecards are provided in sets, as a booklet. If the cards are removed one by one, there should be no incorrect scorecards used, as the booklet is set up in the order in which the matches are fired.
3. All scorecards which are used in the matches and all team cards **MUST BE** labeled with self-adhesive labels (supplied in each competitor's packet). Make certain that you place your labels on your scorecards before you go to the range. Unidentifiable scores will not be used. **DO NOT** use felt-tip pens to fill out scorecards.

5. **FAILURE TO USE THE PROPER SCORECARD WILL RESULT IN A SCORE OF "0"**.

6. NOTE: Competitors who appear at the firing line without scorecards will be required to purchase white duplicate scorecards at a cost of \$5 per scorecard. It is the competitor's responsibility to have the correct change.
7. When signing scorecards, the competitors must remember they are signing for the value of each shot indicated on the card. Each competitor is responsible for their own scorecard. Competitors are reminded that ICFRA Fullbore Rule T10.7 requires the Competitor to turn in the scorecard to the RO, or to some other person designated by the RO, immediately upon completion of firing, as outlined above, when it is completed.

Protests and Challenges

Challenges to the published results.

Scores will be posted in two locations, namely NRA Building 950 and the National Match Results Centre at the back of Rodriguez Range. Provisional results may, for convenience, also be posted on the walls of the mobile tower used for range control. Provisional results will show the time of posting and the time of expiry of the challenge period and competitors should check the scores as they are posted in one of the above centers.

If a competitor (or Team Captain in respect of Team Matches) believes a score, class or category to be incorrect he or she must go to the Challenge window in Building 950 and explain the discrepancy before the expiry of the challenge period. The challenge will be processed and corrections made if warranted

It is the competitor's responsibility to make certain that the posted scores are correct and claims for rectification cannot be made after the expiry of the challenge period at which point the competitor accepts responsibility for the scores posted.

If a challenge relates to the question of whether shots or provisional shots recorded on the scorecard may properly be included in the competitor's score, reference may be made to the protest procedure below by submission of the appropriate statement of the facts to the Match Director (or deputy) as below.

Target challenges

If a competitor disagrees with the value of a shot announced by the scorer or displayed on the target, he may challenge the value of the score through the Line Officer in accordance with ICFRA target Rifle Rules T12.10 (marking on the target) or T12.17 and T12.18 (scoring on the firing point). The value subsequently notified from the Pits is final.

Protests

All protests relation to incidents on the range must be made in accordance with ICFRA Rules section T15. State the nature of the protest orally to the Range Officer who will summon the Chief Range Officer and a Match Referee who will consider the matter and rule. The decision of the Chief Referee regarding outcomes on the Range is final. If the matter cannot be resolved on the spot or on completion of the competitor's (or Team's) shoot, provisional shots *may* – if appropriate - be ordered by the Chief Referee. The relevant shots will be recorded on the back of the scorecard for the use of the Match Committee. In all cases the competitor or his team captain should put the circumstances in writing within 30 minutes of completion of the match in question for subsequent consideration by the Match Committee and should submit the document to the Match Director or his/her deputy who will cause the Match Committee to meet and rule. The protesting competitor should be prepared to appear before the Match Committee.

After the Match committee has made its decision, the protest will be returned to the Statistical Office. The competitor may pick up a copy of the protest results at the challenge window.

Appeals

In the event that the Chief Referee applies a discretionary penalty prescribed within the rules, a competitor or his Team Captain as appropriate may submit an appeal to the Match Committee by stating his complaint orally to the Match Director or Deputy and subsequently submitting a statement of the circumstances to the Match Director or Deputy at the earliest practical moment. The appeal will be handled as for a 'protest' above.

Match Committee

The Match Committee will include three senior members of visiting Teams and such ICFRA Officials as the Chairman may require.

All decisions of the Match Committee are final.

Test/Zero Range - Function Range

Facilities are available to test fire high power rifles that have been repaired during a championship phase. Competitors must furnish their own ammunition.
